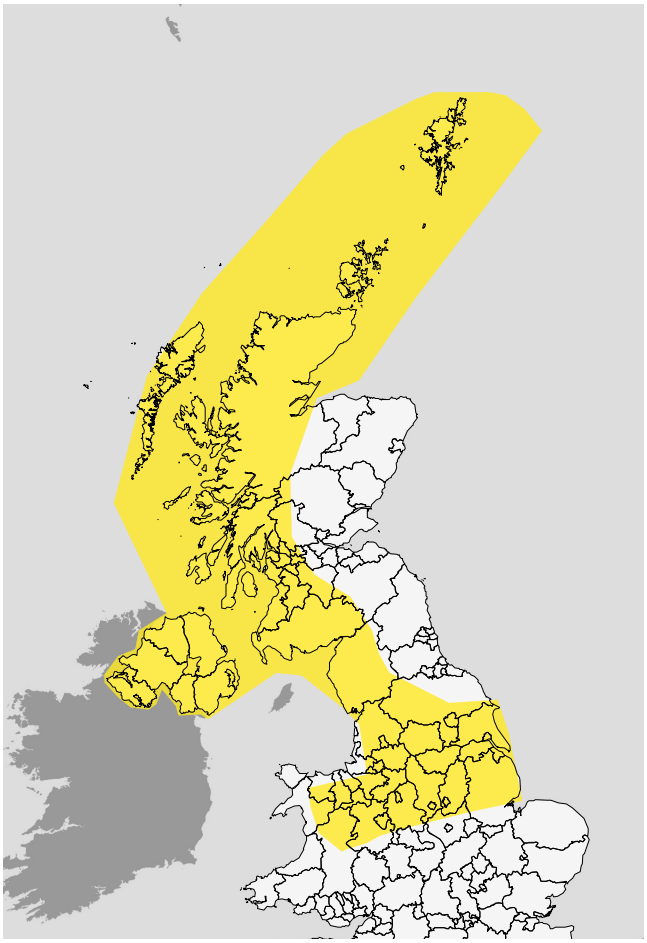
Yellow warning
Snow & Ice

Between
22:00 Wed 26 Feb 2020 and
10:00 Thu 27 Feb 2020



Wintry showers and icy stretches likely to bring some travel disruption.

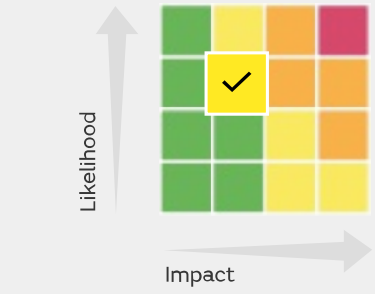
What to expect

- Some roads and railways likely to be affected with longer journey times by road, bus and train services
- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

Wintry showers are expected to continue through Wednesday night into Thursday morning, especially over Northern Ireland and western Scotland, before developing more widely across parts of northern England, the north Midlands and north Wales later in the night. This will leave surfaces wet, leading to icy stretches developing on untreated surfaces.

Showers will fall as a mixture of hail, sleet and snow. Some places are likely to see 1-3 cm of snow, mainly above 100 m, with 5-10 cm possible above 400 m.



✓ Medium likelihood of low impacts
